**National Measurement Policy
Sailmakers as Measurers
1-11-2010**

“Sailmakers may make application to, and are appointed by, the National Measurer as club measurers and may measure only sails.

Measurers may not measure the sails for a boat on which they are skipper or crew.

The procedure for measurement is to fill out the excel spreadsheet, save it as NSxxxx yyymmdd.xls, email to National Measurer and State Measurer with the words “NS14 measurement form” in the subject line.

The National and State Measurers will review sail measurements to ensure compliance.

Appendix A contains a list of measurers and their contact details.”
